

Safety precautions (Please read for your protection).

Moisture & Water concerns:

This product should NOT be used near water or moisture. Care should be taken so that this product does not fall into liquids and liquids are not spilled onto the enclosure. Do not use this product on a wet lawn, by a bathtub or sink, near a laundry basin, in a wet or damp basement, on wet cement, near a swimming pool, etc).

Power:

If using a transformer, only use the transformer that is accompanied with the unit. If excessive heat or burning smell is discovered coming from this product or the transformer, immediately unplug the transformer and the product and contact your dealer. Route power supply cords so they are not likely to be walked on, pinched, or damaged.

Hookup & Grounding:

Precautions should be taken so that the grounding and power of this or any product are not bypassed or altered. Improper hookup or grounding of this product can cause injury or even death. If there is any question to proper installation and grounding, please contact a qualified electrician. For hookup information, please consult with a qualified dealer or electrician.

Service:

To reduce the risk of fire or electric shock, the user should not attempt to service this product, open the enclosure, or alter the product or power transformer. For any servicing requirements, please send this product and power supply to a qualified dealer.

General:

This product should be handled with care. Do not drop this product on your foot or put this product on the edge of a table where it could fall and cause injury. Basically, if there is any question or concern about this product or the hookup of this product, contact a qualified electrician or qualified dealer.
